For the 2009 season a test trench is planned to locate the rural settlement to which the cemetery belonged. The *Avkat Archaeological Survey* is a diachronic survey of the region surrounding the modern village of Beyözü (also known as Avkat, and identified as ancient Euchaita,) and seeks to understand the long-term changes in landscape use and socio-economic structures found in a rural Anatolian hinterland. The project seeks to integrate traditional archaeological survey work with other disciplines into a 100% digital project incorporating large datasets both of a traditional archaeological nature, as well as non-archaeological such as large volumes of text, climatic and palynological data, and vegetational and geological classifications derived from multispectral satellite imagery. It creates a web-accessible site with full access to datasets for a broad range of constituencies: [www.princeton.edu/avkat](http://www.princeton.edu/avkat).

The *International Medieval Logistics Project* is run jointly between Princeton and Birmingham/UK. This project uses Grid-aware distributed simulation techniques to model movement and sustainability of historic armies as well as to synthesise data for pre-modern landscapes and land-use. The study involves multiple simulations of transient populations (armies) moving within a digital environmental database. Alongside primary and secondary source material, the data will be used to interpret events related to warfare and resource distribution and consumption and to act as a control on the historical sources. See J. F.

Haldon, ed., *General issues in the study of medieval logistics: sources, problems and methodologies* (Leiden 2006); [www.medievallogistics.bham.ac.uk](http://www.medievallogistics.bham.ac.uk).

The ***Digital Manzikert Project*** brings together historians, archaeologists and computer scientists to model the logistical arrangements relating to the campaign resulting in the battle of Manzikert (AD 1071). Given the significance attributed to these events and, ultimately, the collapse of Byzantine power regionally, the lack of consensus between historians on a range of key issues concerning manpower and resources, and the route taken by the Byzantine army to Manzikert, is profound. The project involves a fundamental re-analysis of the Manzikert campaign and will illustrate the use of Grid-aware distributed simulation techniques to model movement and sustainability of historic armies. A workshop presenting the progress achieved so far will take place on 27<sup>th</sup>-28<sup>th</sup> April 2010 at Princeton: [www.vista.bham.ac.uk/VISTA\\_pdfs/medieval\\_warfare.pdf](http://www.vista.bham.ac.uk/VISTA_pdfs/medieval_warfare.pdf).

Kucukyali ArkeoPark Project, 2010

This year`s archaeological operations focus on the monastic platform where we are revealing and completing excavation of the monastic tower; clearing of the *katholikon* dedicated to St. Michael is due to start on the third week of July. Outside the monastic platform, to the north of the complex and further removal of an illegally built road, excavations are bringing to light the monastery`s built environment outside its core.

A team from the Milano Politecnico University plans to begin a conservation program of the newly revealed architectures as well as the cistern`s walls in the Fall. A landscaping project for the excavated areas will be designed by a team of Turkish specialists.

Küçükyalı ArkeoPark Project, in partnership with Istanbul Archaeological Museums and Koç University and with the sponsorship of the Istanbul 2010 European Capital of Culture Agency, Municipality of Maltepe and Fiat-Tofaş, invites visitors to the archaeological site at Küçükyalı. As we have been continuing our third year of excavations on the remains of the 9<sup>th</sup> century patriarchal monastery of *Satyros*, between 12<sup>th</sup> of July and 10<sup>th</sup> of August 2010 we welcome visitors expect visitors to come and share this experience with us.

Guided tours are available every day except Sundays at 10:30 in Turkish, English, Italian, French, German, Hungarian, Serbian and Croatian. Please call ahead to reserve a tour (+90 216 3888318). Between August 5 and 7 the site will host a Film Festival.

Survey in Zenonopolis in Isauria

The survey which has started in August 2008 aims primarily at the architectural documentation of the early Byzantine church on the plateau (yayla) of Zenonopolis/Büyükkarapınar (Karaman) and of other remains. The building on the yayla, which can be attributed to St. Socrates considering a 5th C. inscription found on the site, remained unknown to research so far. The ancient site – the birthplace of emperor Zeno – is occupied by the modern village below where the necropolis with rock cut sarcophagi is still to be seen and a series of architectural fragments can be identified as reused in the masonry of houses.

Das Projekt "Constantinopolis. Topographische, baugeschichtliche und wirtschaftsgeschichtliche Untersuchungen zu den italienischen Niederlassungen in Konstantinopel vor 1204", das seit 2005 von der Henkelstiftung unterstützt wird, soll nun im Zusammenwirken mit dem DAI (das schon in einer frühen Phase Träger des Projekts war) zu Ende geführt werden. Die Darstellung beruht in erster Linie auf einer Edition, Übersetzung und Kommentierung der lateinischen und griechischen Dokumente in den Staatsarchiven Pisa und Genua, sowie zu einem geringen Teil in Venedig, begleitet von Survey-Forschungen in Istanbul, die nun dank einer elektronischen Kartographierung der Stadt sehr erleichtert werden. Der Bearbeiter glaubt mit großer Sicherheit annehmen zu können, daß der den

Genuesen geschenkte, einst der Botaneiates-Familie gehörende Palast identisch ist mit den byzantinischen Substruktionen im Acimusluk sokagi (Müller-Wiener, Bildlexikon S. 541). Weitere Untersuchungen dieses u.a. schon von K. Wulzinger im Jahrbuch des Deutschen Archäol. Instituts 1913 aufgenommenen Baues und neue photographische Aufnahmen der Innenräume sollen im Jahr 2008 erfolgen. Sondagen sind wegen der völligen modernen Überbauung des Areals unmöglich, doch soll Einsicht genommen werden in die Unterlagen der Denkmalbehörden zum Zeitpunkt dieser Baumaßnahmen. Eine Publikation aller Ergebnisse erfolgt in einem der Teilbände der *Tabula Imperii Byzantini* im Rahmen der Denkschriften der Österr. Akademie der Wissenschaften.
